

电流设置是一个通道的电流，所以需要注意2个通道并联的问题

$$I_{LED} = 2580 \times 1.21 / R_{SET}$$

$$100K = 22\mu H$$
$$400K = 10\mu H$$
$$F_{SET} = 7.87 \text{ is } 100K$$

$$I_{LED} = 1.21 \times 2580 / R_{SET}$$
