

ISO/IEC JTC 1/SC 17  
Cards and personal identification  
Secretariat: BSI (United Kingdom)

**Document type:** Text for CD ballot or comment

**Title:** Notification of Ballot: ISO/IEC 14443-3:2011/PDAM 6 - Identification cards - Contactless integrated circuit cards - Proximity cards - Part 3: Initialization and anticollision AMENDMENT 6  
Bit rates of 3fc/4 and fc

**Status:**  
**WORK ITEM: 60113**  
**STATUS:** This ballot has been posted to the ISO Electronic balloting application and is available under the Balloting Portal, Committee Internal Balloting.

**Date of document:** 2011-07-14

**Expected action:** VOTE

**Action due date:** 2011-09-15

**No. of pages:** 5

**Email of secretary:** [chris.starr@ukpayments.org.uk](mailto:chris.starr@ukpayments.org.uk)

**Committee URL:** <http://isotc.iso.org/livelink/livelink/open/jtc1sc17>

## **Identification cards — Contactless integrated circuit cards - Proximity cards — Part 3: Initialization and anticollision**

### **AMENDMENT 6**

Bit rates of  $3fc/4$  and  $fc$

*Cartes d'identification — Cartes à circuit intégré sans contact - Cartes de proximité — Partie 3: Initialisation et anticollision*

#### **Warning**

This document is not an ISO International Standard. It is distributed for review and comment. It is subject to change without notice and may not be referred to as an International Standard.

Recipients of this draft are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation.

### **AMENDEMENT 6**

*Débits binaires de  $3fc/4$  et  $fc$*

Document type: International Standard  
Document subtype: Amendment  
Document stage: (30) Committee  
Document language: E

### Copyright notice

This ISO document is a working draft or committee draft and is copyright-protected by ISO. While the reproduction of working drafts or committee drafts in any form for use by participants in the ISO standards development process is permitted without prior permission from ISO, neither this document nor any extract from it may be reproduced, stored or transmitted in any form for any other purpose without prior written permission from ISO.

Requests for permission to reproduce this document for the purpose of selling it should be addressed as shown below or to ISO's member body in the country of the requester:

[Indicate the full address, telephone number, fax number, telex number, and electronic mail address, as appropriate, of the Copyright Manager of the ISO member body responsible for the secretariat of the TC or SC within the framework of which the working document has been prepared.]

Reproduction for sales purposes may be subject to royalty payments or a licensing agreement.

Violators may be prosecuted.

## Foreword

ISO (the International Organization for Standardization) and IEC (the International Electrotechnical Commission) form the specialized system for worldwide standardization. National bodies that are members of ISO or IEC participate in the development of International Standards through technical committees established by the respective organization to deal with particular fields of technical activity. ISO and IEC technical committees collaborate in fields of mutual interest. Other international organizations, governmental and non-governmental, in liaison with ISO and IEC, also take part in the work. In the field of information technology, ISO and IEC have established a joint technical committee, ISO/IEC JTC 1.

International Standards are drafted in accordance with the rules given in the ISO/IEC Directives, Part 2.

The main task of the joint technical committee is to prepare International Standards. Draft International Standards adopted by the joint technical committee are circulated to national bodies for voting. Publication as an International Standard requires approval by at least 75 % of the national bodies casting a vote.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO and IEC shall not be held responsible for identifying any or all such patent rights.

Amendment 6 to ISO/IEC 14443-3:2011 was prepared by Joint Technical Committee ISO/IEC JTC 1, *Information technology*, Subcommittee SC 17, *Cards and personal identification*.

## Identification cards — Contactless integrated circuit cards - Proximity cards — Part 3: Initialization and anticollision

### Amendment 6: Bit rates of $3fc/4$ and $fc/4$

*Page 5, 6.1*

Add Bit rates " $3fc/4$  and  $fc$ " in Table 1.

*Page 7, 6.2.1.1*

Add " $3fc/4$  or  $fc$ " in the first column of the last the row of Table 2.

*Page 24, 7.1.1*

Add the following paragraph below Figure 13:

"The start and stop bits are omitted for PSK modulation from PCD to PICC."

*Page 25, 7.1.3*

Add the following paragraph below Figure 14:

"The SOF and EOF for PSK modulation from PCD to PICC are defined in ISO/IEC 14443-2:2010/Amd.4."
